THE CENTER FOR ORGANIZATIONAL EXCELLENCE AWARDED CONTRACT FOR DOD ENTERPRISE HUMAN RESOURCE INTEGRATION SERVICES MANAGEMENT SUPPORT

Rockville, Md. (May 14, 2014) – The Center for Organizational Excellence, Inc. (COE) today announced their award for the Department of Defense (DoD) Defense Civilian Personnel Advisory Service (DCPAS) Enterprise Human Resources Information Technology Services (EHRIS) for Management Support and Information Technology Services. EHRIS is one of four directorates within DCPAS and is charged with developing and sustaining all DoD enterprise human resources information technology systems.

COE and its partners, Excella Consulting and BAM Technologies, have joined together as Team COE to support this endeavor. The team will assist DCPAS with project management and system support, documentation compliance for DoD-wide HR information systems, web application development, software development and sustainment, and configuration of new software.

Since 2006, COE and its partners have supported EHRIS in addressing the continuing challenges of managing human capital information technology (IT) assets within DCPAS and across DoD. During this time, we have helped EHRIS ensure system uptime and reliability, compliance with DoD regulations and security requirements, and department efficiencies through consolidated platforms and automated business processes.

“We are proud of our history of supporting EHRIS successes and contributing to the efficiency and effectiveness of the DCPAS mission accomplishment,” said Lyn McGee, vice president of national security solutions. “Together, Team COE will help EHRIS effectively manage the many complex systems of the DCPAS operating environment and adapt to the changing direction of the federal government.”

About COE

For 30 years, The Center for Organizational Excellence, Inc. (COE) has been a trusted partner in transforming our clients' organizations and programs so they may efficiently and effectively accomplish their mission. We help our clients achieve meaningful and measurable outcomes through strategy and development service in the areas of organizational effectiveness, human capital, and technology solutions.
